Dear Patti & Todd,

On behalf of the Julia A. Purnell Museum and myself, I would like to thank you for all of the work you have performed in order to secure non-profit status for our organization.

If it was not for your generous help, there is no doubt that the museum would still be struggling to untangle the issues related to its non-profit status. The limited resources of our small organization would be strained to deal with these complexities. Because of your assistance and expertise, we were able to continue to do the work that we do best: preserving local history and providing our community with enriching cultural experiences. In this way, your work on the museum's behalf has benefited the entire community we strive to serve.

It is rare to meet with such attentive, professional, and friendly treatment, even when one is paying for a service! So, your help is all the more appreciated for the courteous and efficient manner in which it was offered. It was a pleasure to work with you both, and the museum sincerely owes you and your firm a debt of gratitude.

Again, thank you for generously volunteering your time and expertise.

Sincerely,

Claire Otterbein

Assistant Director

Julia A. Purnell Museum
