

## **Valentina Mauro**

*Director and Head of Italy, Evora*

Valentina Mauro joined EVORA Global in March 2022.

She has over 15 years of experience in sectors including real assets, finance and information technology. She's spent the last 3.5 years as the Head of Italy for Deepki (a real estate software company) supporting the implementation of ESG strategies.

She's worked with clients such as Generali Real Estate, Allianz, DeA Capital and BNP Paribas Real Estate, providing expertise to develop and manage ESG projects. Valentina has broad experience in strategic and management consulting and innovation, helping companies grow exponentially, thanks to her international experience gained in Europe, Latin America and the US.

Valentina leads the global advisory services and accounts management and the Italian business, leading the company's local ESG presence in Italy's real estate market and promoting the adoption and use of EVORA's SIERA software platform among clients.

She also supports management of recurring ESG programmes for senior accounts and the global EVORA team growth in strengthening its presence in Italy, Continental Europe and globally since the opening of offices in New York.
