## OVERVIEW

DLA Piper is a global law firm with 91 offices in 33 countries throughout Africa, the Americas, Asia Pacific, Europe and the Middle East, positioning it to help companies with their legal needs anywhere in the world. We provide our clients with trusted local expertise and access to seamless multi-jurisdictional legal capabilities across a full range of services and sectors.

DLA Piper Singapore has a long history of providing legal advice to regional and international clients working throughout Southeast Asia and elsewhere across the globe. Over the past 18 months, our full service regional capabilities have been substantially enhanced, making us unique among international law firms in the breadth and depth of our ability to support clients.

Our Singapore team offers a full range of legal services operating as one fully integrated group within our broader Asia practice to help clients realise their strategic, commercial and operational goals.

Reflecting our diverse client base, we have lawyers in Singapore who are fluent in a wide range of Asian languages and dialects in addition to English, including Bahasa Indonesia, Malay, Mandarin, Mongolian, Cantonese, Hokkien, Thai, Hindi and Filipino.

### SUPPORTING OUR CLIENTS

Our clients in Singapore include multinational enterprises, emerging companies developing industry-leading technologies and manufacturers of a wide array of goods as well as financial services institutions.

We pride ourselves on being friendly, approachable and responsive. We will take the time to get to know you and your business and will share your commitment to achieving the best possible outcome.

They are very efficient, diligent and commercial. They have a wider business perspective [and] are also able to help us identify opportunities.

### WORKING WITH LOCAL COUNSEL

DLA Piper is restricted for regulatory reasons from practising local law in Singapore, as are most international law firms. This has allowed our team to regularly work with leading local firms to deliver Singapore law advice as needed, while leveraging our own knowledge and experience in Singapore advisory and transactional work.

We actively maintain close relationships with a number of local law firms and can recommend suitable domestic counsel based on the requirements of each particular deal, while at the same time enjoying the flexibility to work with any preferred legal service providers.

We are experienced at managing these relationships to provide seamless client service, so you will always have one single point of contact to coordinate the matter.
