

## We are leading the new legal establishment

### About the Firm

The whole legal industry is changing. The old establishment is gone, and there's a new establishment in town. It's an exciting and dynamic future, which we at DLA Piper are leading. It's a new business world, with new client needs. Clients want more than legal advice, they want strategic business advisers that cross borders and geographies. They want global insights with local savvy. And so do we.

DLA Piper is a firm built for this rapidly globalising world, and we're looking for people to join us on this mission. We're looking for people who see the world differently, who listen to clients, and who solve their problems, not just give advice. Being well read is good, but being able to read the room is great. We're looking for people to help make business better for our clients.

### Our Insight Programme

Our Insight Programme is designed to give you an insight into life at the first global business law firm in New Zealand. During this three-day immersion, you will have the opportunity to hear from the firm's senior leaders, participate in professional skills training, gain an in-depth insight into our practice groups, and attend networking events.

DLA Piper are offering a handful of third year students this first-class opportunity:

**Who:** Our Insight Programme is open to students in their antepenultimate year of study. This equates to the 3rd year of study for students completing a 5 year degree.

**Where:** We have positions available in our Auckland and Wellington offices.

**When:** The Programme runs for three days during the August / September break.
